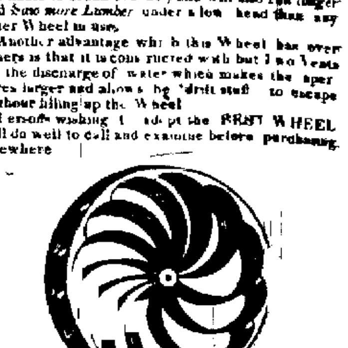
Patent Mill Wheels.

Timbey's Patent
Two Vent Cast Iron Water Wheels
—for—
SAW MILLS,
Invented by T. R. Timbey of Cato N. Y.

THE undersigned would invite the attention of the Public to the above named WHEELS, which have been thoroughly tested in Competition with all other popular SAW MILL WHEELS in use at the present time and they can confidently recommend them, with the same head and quantity of water applied as possessing and combining more *Strength and Speed* and giving a more uniform and *Steady Motion* in and out of the cut (and therefore not liable to break crank) and will also run *longer* and *Saw more Lumber* under a low head than any other Wheel in use.

Another advantage which this Wheel has over others is that it is constructed with but Two Vents for the discharge of water which makes the apertures larger and allows the drift stuff to escape without filling up the Wheel.

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere.



We would also call the attention of Mill Owners

Valentine's Patent
Reversing Centrifugal Water Wheel,
—FOR—
"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills, and are made of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel, for perpendicular Shafts, now used.

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by ITHAMAR A. BEARD, Esq., *Civil Engineer*—Lowell, Mass. who is well known as one of the most Scientific and experienced practical Engineers in this country.

"This wheel is formed with curved floats the number depending upon the size and vent of the Wheel each extending so far around the Wheel, that when the water arrives at the jet its pressure is so far expended that it falls very nearly inert from the Wheel. The Wheel is inclosed in a cylindrical wooden curb or flume, in which the water stands at its full head, the column being sustained by the stationary plate underneath the Wheel, so that it has no downward pressure upon the Wheel, which stands perfectly free in the column of water, and by this arrangement all the friction on the step and bearing of the Wheel is avoided, and so much of the power saved, which in the ordinary mode of operation is wholly lost.

"This Wheel is adapted to low as well as high heads of water, and will run as well in back water as out of it, providing the head rises in a freshet as fast as the back water. But a Wheel with the jets rightly guaged for a high head will not answer for a low one, and vice versa for as the head increases, the width of the jets should be proportionably decreased so that the water may not issue to waste, and not give its best effect to the Wheel.

"In point of power, the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless, is less liable to need repairs easily accessible when they are needed, costs much less in the outlay, is much more durable, and takes very much less room in a mill or shop.—Simplicity of structure durability of parts, convenience of application and excellence of power are the grand points of recommendation for this Wheel. ITHAMAR A. BEARD, *Civil Engineer*."

**All sizes of the above Wheels with all the LATEST and most IMPROVED patterns of Mill Gearing, Machinery, &c.; Shingle, Clapboard, Sapping, Lath and Box Machines;

Steam Engines and Boilers,
PAPER MACHINERY,

DR. CUMMINGS'S
Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine. With these others of vegetable origin are combined designed to render them more active, and consequently more immediately effective.

The Dock, or rather a species of it, now ranks as a medicinal plant, second to no one of the vegetable kingdom. With the aid of a distinguished chemist whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time.

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he conceived the idea of uniting them, which has resulted in the production of the compound. In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract must to be relied on, and least liable to decomposition is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues, for a long time, without heat or any other accelerating agent. None is permitted to be used in the compound that has not been obtained by this process and that has been less than a year in preparation.

The Compound is recommended for Scrofulous Erysipelas, Ulcerous affections, Eruptions, and Mercurial diseases. Also for the numerous maladies arising from sedentary employments, occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers and other abuses of the constitution among which are Neuralgia, Palsy, Affection of the Liver, Bilious Complaints and Dyspepsia or Indigestion.

In diseases of warm climates, with which the proprietor became familiar in his practice in Havana some years since, the compound will prove particularly efficacious, both as a remedy and a preventive.

This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life. It was extensively prescribed by him while in practice, and is believed to be in favor with his medical brethren in general to whom he is known.

Prepared only by Dr Stephen Cummings, and sold at wholesale and retail by Joseph Ingraham & Co., No. 143 Middle street, and Edward Mason, No. 1?? Middle street—only agents for Portland.

Sold in Bangor by G W LADD and JOSEPH INGRAHAM.

WHIG NOMINATIONS.

FOR PRESIDENT
GEN. ZACHARY TAYLOR.
FOR VICE PRESIDENT
MILLARD FILLMORE.
FOR GOVERNOR
ELIJAH L. HAMLIN.

PEOPLE'S GRAND RALLY!
Ratification Meeting!

The Whigs of Bangor and all in favor of the election of ZACHARY TAYLOR and MILLARD FILLMORE are requested to attend at

THE CITY HALL,
ON
SATURDAY EVENING, June 17
AT 8 O'CLOCK,

to hear the report of their Delegates to the Philadelphia Convention and to respond to and ratify the doings of that assembly

The nomination of Gen Zachary Taylor for President, and Hon Millard Fillmore for Vice President, cannot fail to merit and meet the hearty response of the country at large and to be eminently satisfactory to the Whigs of Bangor

Let there be then a GRAND RALLY—let the joyful response be made—let the glad shouts of approbation go forth that the voice of the People has been heard in the nomination of the uncorrupted true hearted Patriots Gen ZACHARY TAYLOR and Hon MILLARD FILLMORE as the worthy Standard Bearers to lead the country to the Canaan of Peace, Honor, Prosperity and Happiness Per order of City Committee

☞ "I do not desire the Presidency, and only consent to be a candidate in the same proportion in which it is desired by the people irrespective of party, and he that cannot be trusted without pledges, cannot be trusted with them I have no private purposes to accomplish—no party projects to build up—no enemies to punish—nothing to serve but my country" ZACHARY TAYLOR

Grand Rally this Evening.

A public meeting of the friends of Gen ZACHARY TAYLOR and Hon MILLARD FILLMORE has been notified by the city committee, to be held at the City hall this evening, for the purpose of hearing the report of the Delegates to the Philadelphia Convention and ratifying the proceedings of that assembly

It is a matter of rejoicing with true patriots that the prospect now beams out hopefully that the country is to be favored with a prudent and honest and safe administration, under the lead of the right hearted TAYLOR, who has adorned the annals of our country's bravery and in whom, like WASHINGTON, modesty and merit unite to illustrate each other

Every freeman whose great desire is that the country should be well governed—that our noble political institutions should work out for the people the good results of which they are capable—that the affirmative duties of our constitution should be made active in promoting the welfare, prosperity and happiness of the whole mass of the people—that labor should be made to occupy the honorable position to which by its dignity and importance it is entitled and its protection placed among American Rights—that the strength of the nation should be put forth to improve the safety of our internal navigation and to facilitate the exchanges of the productions of the different sections of our land as well as the communication among our people—that the extension of the means of education and the widest diffusion of intelligence among those living in the remotest settlements, in short every man who expects to find his own prosperity and his own welfare in the general welfare and who believes that the great powers of the government were conferred in order to promote this general welfare of the whole people, should come in at once and heartily to the support of Gen TAYLOR for the Presidency

This is the anniversary of the first grand battle in the great struggle which our political fathers made in effecting their independence from a government which had neglected its duty of fostering the interests of the many for the benefit of the few and in which they succeeded in establishing a government for the welfare of the many It is then a suitable occasion for all to meet and to unite efforts for the restoration of our government to honest and pure hands and patriotic hearts and to bear especially as the head man, who so beautifully and truthfully says —

"I HAVE NO PRIVATE PURPOSES TO ACCOMPLISH—NO PARTY PROJECTS TO BUILD UP—NO ENEMIES TO PUNISH—NOTHING TO SERVE BUT MY COUNTRY

It is a suitable occasion for allowing the differences which have separated patriotic and honest and unselfish men in the past to be laid aside and forgotten, in the generous impulse of the new duties which the present time demands—

RALLY THEN, FREEMEN OF BANGOR, and let your voices swell the chorus of thanksgiving now ascending throughout the whole land that a bright day is dawning and that soon the glorious and golden noon will come, when ZACHARY TAYLOR shall administer the government for the benefit of the governed and in accordance with the will of a free and enlightened people

☞ Our citizens will be glad to learn, we doubt not, that Professor Wines, the learned and highly popular lecturer on the Jews, will commence a course of lectures in this city on Monday evening next, at Market Hall These lectures have received great applause in other cities, and cannot fail to interest the people of Bangor

☞ In announcing the nomination of Millard Fillmore of New York, as the Whig candidate for the Vice Presidency, the Boston Atlas remarks —

Mr Fillmore is a sound practical man, of unsullied integrity who has a thorough knowledge of the best interests of his country, and has inscribed his name upon repeated pages of her history, in connexion with patriotic and honorable acts Whether we recall his services as chairman of the committee of the House, which reported the Tariff of 1842, his speeches urging its passage, or his labors in behalf of Whig principles at home we recognize in him a tried politician, whose undeviating love of his country makes her interests his first duty The enormous majority given him at the two years since, when he was elected Comptroller of the State of New York shows the political estimation in which he is held in the Empire State—while in private life he is equally loved and respected—The candidate for the Presidency having been selected from the South, Massachusetts would undoubtedly have preferred to have had the nomination bestowed upon one of her distinguished sons, but a majority of the Convention having decided otherwise all feelings of disappointment should be banished and as we remarked yesterday, when speaking of General Taylor we have no alternative of doubt, but to place his name at the head of our columns, and to pursue our party and unwavering support

The two tickets are now before the people—Taylor and Fillmore, Cass and Butler The latter were nominated by an imperfect Convention, whose ranks distracted and disunited and reigned, and whose proceedings have been disavowed by a large body of the party represented Taylor and Fillmore, on the contrary, have been nominated by one of the fullest Whig conventions ever held, whose members, fresh from the people of this vast Republic, have freely interchanged their views and sentiments This is no time to discuss a laid by question, but we trust that all true Whigs acting from a deep conviction of the duty they owe to themselves and to their political brethren, will rally around their Regularly Nominated Candidates and hurl from power that party which has violated its pledges, involved the country in a ruinous and unjust war, depressed the interests of home domestic industry and substituted party for patriotism, revelled upon the public funds, and sapped the very foundations of her honor and prosperity —Recognizing in the nomination the choice of the Whig party, let a spirit of union and enthusiasm pervade these ranks, and each voter strain every nerve, until the triumph be consummated, in the election of Taylor and Fillmore!

☞ The Bangor Gazette tries, in its peculiar manner, by a violent inference to make it out that we have intended some remarks offensive to Mr Clay That is not the case Mr Clay has a strong hold upon the affections of every Whig But we cannot better express our own sentiments than we find them expressed in the following from the Richmond Whig —

Henry Clay.

Though defeated in the nomination for the Presidency the hold of this distinguished Statesman upon the affections of his friends is not in the slightest degree weakened If he did not receive the nomination it was from the settled belief that he could not have been elected—Slander, which has never yet been known to leave untouched a bright reputation—which in fact usually fastens itself upon them for their very brightness—has poisoned the very springs of American feeling against him who was one of America's greatest benefactors

The mighty men of earth—those whose counsels direct the affairs of nations—rarely meet with justice from their contemporaries They hate them because they throw them in the shade They envy them, because their names are always in the mouths of men—they are jealous of them because they see the estimation in which they are held In looking over the long catalogue of illustrious men—the heroes, sages and authors—whose names throw a halo round history, or whose deeds render it interesting to the reader—we find that few have in their own time received the meed of praise to which they were justly entitled Death alone can sanctify all that is truly great It is only when the great man can no longer be a rival to any living being—when his bright image no longer throws into the shade the twinkling of others—that he can be truly estimated

What a character will not Henry Clay bear with posterity! The first statesman of his age—the main stay of the war—the father of the American system—the man who twice saved his country from disunion—who was her bulwark in the hour of danger and her ornament in that of peace! Office could add nothing to the lustre of his fame to see Henry Clay and to become President, would almost be to descend

☞ The Directors of Mount Hope Cemetery will offer several of their finely located lots at Auction on Tuesday next All who are interested in this beautiful city of the dead, and who of all the families is not in some way interested in it? Will be gratified we doubt not to learn that very extensive improvements have been made in the grounds the last and the present season, under the immediate superintendence of Dr James B Fiske and Gen Joseph Treat Something of a domain has been added new avenues opened and several essential improvements introduced The Corporation have taken hold of the matter with a zeal and in the exercise of that good taste which agrees with the public sentiment of our city Time and culture—the union of the labor and taste of owners of private lots with the efficient and liberal directors of the Corporation, are making and will make Mount Hope all that a resting place of the mortal portion of the dear departed dead, which its most sanguine friends could desire

Many who once interested themselves in the dedication of this spot as a "home of the dead" and who sang of its beauties and its suggestive considerations in the sweet strains of poesy, have been laid by weeping friends beneath its bosom, to sanctify it more fully in their hearts to its sacred office, Friend after friend departs—the wife—the mother—the husband—the child—the sister—the brother—the friend Scarcely a week passes when no one is added to the number of the silent sleepers at Mount Hope, and is it not a comfort when the loved depart, and their mortal remains are to be deposited in the silent earth, to have a quiet and beautiful spot adorned with the green turf, and tree, and shrub, for their reception?

We advise our friends then, to attend the sale of lots on Tuesday next and thus possess themselves of a desirable lot and at the same time encourage the Directors in their worthy labors and enterprise.

☞ The Augusta Age, the leading Loco paper in this State, affects to be very much concerned to know whether there is any Whig party! Its teeth chatter and its lips turn pale at the dread it has of the existence and the power of that party on the 7th of November next Whistle smartly, Mr. Age, to keep up your courage, and shiver in dread as in the autumn, and then you shall have a cold bath that will answer your interrogatories with unmistakable significance

The Waterville Mail states that Mr M V Reynolds, at Brown's Corner, in Vassalboro has machinery in operation which can be easily completed of a most superior article of shoe pegs three hundred bushels a month These are sold readily to the shoe makers at $1 25 to $1 50 a bushel The machinery is of Mr Reynold's own invention, secured by patent The pegs are superior, in several respects, to any others now made, and the demand is greater than can be met with the present machinery The wood used a second growth yellow birch, for which five to eight dollars a cord is paid A cord will average 55 bushels of pegs The wood is worked while green and is sawed, planed, pointed, split and polished by machinery The demand cannot be fully met and the business is to be enlarged by the addition of more machinery

Mr Cary said that he was not opposed to the policy of permitting the banks already in existence to renew their charters in accordance with the provisions of the banking law of 1846 but was opposed to granting new charters unless they embraced the wholesome restrictions he proposed

Evil Company.

The following beautiful allegory is from the German —

Sophronius a wise teacher, would not suffer even his grown-up sons and daughters to associate with those whose conduct was not pure and upright

"Dear father," said the gentle Eulalia to him one day when he forbade her in company with her brother to visit the volatile Lucinda, "dear father, you must think us very childish if you imagine that we shall be exposed to danger by it"

The father took in silence a dead coal from the hearth and reached it to his daughter, "It will not burn you my child take it"

Eulalia did so and behold her beautiful white hand was soiled and blackened, and as it chanced her white dress also.

"We cannot be too careful in handling coals," said Eulalia, in vexation.

"Yes, truly," said the father "you see my child, that coals, even if they do not burn, blacken So it is with the company of the vicious,"

JAUNDICE BITTERS!

SPRING has again opened upon us at a time with its busy season which requires our fullest energies both of body and mind to meet How unfortunate for us poor mortals that it is a season when we are ushered upon us disease and death while the busy scenes of life fill all minds, and while it more is got ting on her loveliest attire In the front of the rank of all Spring disease stands that yellow eyed yellow faced unblenching demon JAUNDICE What countless millions has he slain and how eager for more victims We meet him in our streets at almost every step and his cold and enervating touch is felt more or less heavily by us all Where then shall we look for the friend which shall guard us from this dreadful scourge?

At HARDY'S Drug Store,

EXCHANGE STREET, BANGOR

may you find that friend and at a cost which shall impoverish no man Yes for a mere trifle you shall there find a certain and speedy cure for Jaundice and all Billious troubles in Dr MANLY HARDY'S

JAUNDICE BITTERS,

which, for forty five years have been silently but surely working on for themselves a reputation far above all others standing low upon an eminence too lofty to be assailed by the voice of envy or detraction Indeed they never fail to cure and the subscriber here pledges himself to refund all money paid him for Bitters if they do not effect a cure when taken according to his directions Do not forget that a hundred different kinds of Jaundice Bitters are before the public the virtue of which the subscriber will not speak even the which he does know of and will therefore only say he does know that almost every person at this season needs to take HARDY'S BITTERS, and taking them needs no others They may be found not only at the subscribers but at most of the Drug Stores in Maine

DISEASES OF THE Throat and Lungs.

COUGHS and Colds, the fruitful parents of Consumption, Bronchitis, Asthma, Pleurisy, and many other dangerous diseases, are invariably neglected until the foundation of the Specific Action of the Lungs is laid in the System. A Pain in the Side, Chest or Limbs, which in its first stage would yield to a simple remedy, is allowed to run on until the Physician's skill is baffled, and the Patient is consigned to the untimely grave. Therefore I believe that I am doing both myself and justice, in stating to the public facts, as they must show it to all the afflicted, who may call upon you to administer to them. I shall be pleased at any time to answer by mail the afflicted or whomever may call upon me.

Your obedient servant, &c.

CONSUMPTION

STATEN Island, June 10th, 1847.

DEAR SIR—I take great pleasure in giving you my certificate, that December I was attacked with a severe cough, pain in my left side, loss of appetite, and continual raising of white and yellow matter. In a few days I raised a spit full of mucous, streaked with blood. I have been under the treatment of a dozen physicians who recommended by Dr. Mitchell of Portland Maine, to use a breathing tube; Rockwell case; I only made use of it for one week; it was the cause of bringing on a hemorrhage of the lungs, which reduced me so much that I was unable to get up, but once a day since I was persuaded to try Dr. D. W. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM, by the aid of which, all my symptoms have been removed, and I have been wonderfully restored to health in the space of six weeks, and the prospect of a speedy and entire cure.

In gratitude for which, and in the hope that it may benefit others, I solemnly testify to the facts in this certificate. NELSON LARRABEE,

Palmer's ALL-HEALING Ointment,

FOR THE CURE OF Colds, coughs, pleurisy, sore throat, lumbago, scrofula, scurvy, and all cutaneous eruptions, foul bruises, wounds, ulcers, sores of all kinds, and general debility.

This celebrated Ointment has a most striking effect upon the blood in cleansing it from all impurities, passing through the vessels of the skin, which lubricates the joints and thus removes stiffness or soreness. It is upon the lymphatic ganglia or glands, promoting the free and healthy secretion of the system about the throat, and thus prevents swelling of the glands about the neck, the groins, the axilla or under the arm, about the ear, and all other parts of the body.

This All Healing Ointment is equally efficacious in promoting the secretions of the kidneys, relieving from retention of urine, and by restoring the tone and function of the urinary organs, thus preventing involuntary discharge of urine. It is equally efficacious in acting upon the nervous system by curing neuralgia, St. Vitus's dance, palsy, paralysis, numbness or want of feeling or power of motion from some local or general affection of the nervous tissue. It acts with great power on all the fluids and solids of the body, and attacks disease in whatever part located, whether on the surface or internal organs.

We speak the things which we know of the astonishing efficacy of this justly celebrated, invaluable and worthy named "ALL-HEALING OINTMENT." The innumerable cures that have been managed, the ten thousand sufferers relieved and cured, and the more than ten thousand hearts which have been comforted and cheered by its salutarious efficacy, testifying to the truth of all, and more than all here represented.

TO THE AFFLICTED

DR. DOUGLASS respectfully informs the citizens of Boston that he may be consulted as to all diseases incident to the human frame, at his office.

No. 55 Union Street.

Dr. D. has been in extensive practice in all parts of the United States, and has now in his possession the best of evidence to show that he is a regular M. D. He has been upwards of 40 years in practice. The diseases of females which receive the Dr.'s particular attention. He will tell all the diseases from an examination of the eye—this is an advantage that Dr. D has above all other practitioners, and which will necessarily do away the necessity of a long and unpleasant examination on the part of the patient, of the disease with which they are afflicted. The age and length of time the patient has been suffering, and all the Dr will require in order to give a most thorough knowledge of the incompliant and whether or not a cure can be effected.

Dr. D. has been very successful in the treatment of Colds, Coughs, Consumptions and Liver Complaints, all Pulmonary diseases; Scrofula, Rheumatism Fits, Dyspepsia, all diseases of the Eye and Ear, diseases of the Blood, Palpitation of the Heart, Goul, Salt Rheum, Cancers, cutaneous diseases and all affections of the kidneys and bladder; Neuralgia, Hernia, Abdominal Weakness, Toothache, Intemperance, Stammering. Dr. D. warrants a cure of any of the above diseases, if applied to in season.

He would also respectfully inform the Ladies that he will attend to their diseases and complaints from 8 to 12 A M and from 2 to 9 P M. A full and general assortment of medicines are kept constantly on hand. Printed directions accompany each bottle or package.

All communications (post paid), with a fee enclosed, will be strictly attended to.

ALL SHOES bought at my store are warranted, and to be as good as any in the market, and all ripe handed gratis. E. W. GODFREY.

Dr. Townsend's SARSAPARILLA,

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

This miraculous purifying fluid is now offered to the public at a much cheaper, more convenient, and far more active and powerful preparation than any sold. It forces diseases without vomiting, purging, sickening or debilitating the patient.

The great healing and purifying virtues of this Sarsaparilla over all oil or mediciness, while it eradicates diseases it invigorates the body. It is one of the very best Fall and Winter medicines ever known; it not only purifies the whole system and strengthens the nerves, but it cleanses sore, pimples and rich blood, a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed and within the last two years, more than 30,000 cures of severe cases of disease, at least 20,000 of these were considered incurable.

More than One case of Chronic Rheumatism
Total or partial Deafness.
Many cases of Chronic Weakness or Debility.
Many cases of the worst Female Complaints.
Total cure of the worst form of Erysipelas.
Cure of Blotches on the face, &c.
Many cases of Dyspepsia.
Many cases of Jaundice.
Many cases of Liver Complaint.
Many cases of the worst form of Scrofula.
Many cases of Dropsy.
Many cases of Consumption.

and thousands of cases of derangement of the blood, viz:—Ulcers, dry scabs, eruptions on the face, &c., &c., long lists will not in many cases be sufficient to show pain in the breast, chest, spread affections, &c. &c.

This, we are sure, must appear incredible, but we have letters from physicians and surgeons from all over the United States, informing us of extraordinary cures. H. Vanderbilt, Esq., one of the most respectable citizens of New York, N. Y., informs us that he can refer to more than 100 cases in the principal cities. There are thousands of cases in the City of New York which we will refer to with pleasure, and to most of whom it is the best medicine for the prevention of disease known. It undoubtedly saved the lives of many this year.

5,000 CHILDREN, THE PAST SEASON,

are reported the cause of disease, and prepared them for the autumn season. It has never been known to injure in the least in any case, or under any circumstances.

RHEUMATISM.

This Sarsaparilla is cured with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief, but entirely eradicates it from the system, even when the joints and bones are dreadfully swollen.

This celebrated Ointment has a most striking effect upon the blood in cleansing it from all impurities, passing through the vessels of the skin, which lubricates the joints and thus removes stiffness or soreness. This All Healing Ointment is equally efficacious in promoting the secretions of the kidneys, relieving from retention of urine, and by restoring the tone and function of the urinary organs, thus preventing involuntary discharge of urine. It is equally efficacious in acting upon the nervous system by curing neuralgia, St. Vitus's dance, palsy, paralysis, numbness or want of feeling or power of motion from some local or general affection of the nervous tissue. It acts with great power on all the fluids and solids of the body, and attacks disease in whatever part located, whether on the surface or internal organs.

We speak the things which we know of the astonishing efficacy of this justly celebrated, invaluable and worthy named "ALL-HEALING OINTMENT." The innumerable pains that have been managed, the ten thousand sufferers relieved and cured, and the more than ten thousand hearts which have been comforted and cheered by its salutarious efficacy, testifying to the truth of all, and more than all here represented.
